

For Immediate Release
1.7.09

The Baca County Economic Development Commission (BCEDC) is offering paid internships with the BCEDC for 8 weeks in the summer. The students will work with the board and director of the BCEDC during the internship to accomplish goals and objectives put in place by the organization for 2009. Students will be required to take on several aspects of the organization to experience a full cross-section of what the BCEDC does and also to gain skills in numerous types of experiences. The internship will require the students to work 35-40 hrs/week with fluctuating amounts of supervision in various locations and settings around Baca County where potentially some regional travel should be anticipated. The hours will be flexible to work with the student schedules, but must be completed during the months of June, July, and August in the summer of 2009. If you are interested or know somebody who is please look for the information on the BCEDC website; www.bacacountyedc.com or with the counselors/business teachers of all the local schools. The internship is available to all Baca County high school graduates in May of 2009 and Baca County graduates who are in college, but may be home for the summer. *The Baca County Economic Development Commission promotes responsible, sustainable development and growth through the expansion and or retention of the county's agricultural business, educational and recreational resources.* Laneha Everett, director@bacacountyedc.com or call 719.980.8335.
